

SEEBURGER Positioned in Analyst Firm's Magic Quadrant Report on Integration Service Providers

ATLANTA (March 1, 2006) --- SEEBURGER Inc. announced today that it has been positioned in the latest Magic Quadrant analysis of integration service providers by Gartner, Inc. SEEBURGER was among 12 vendors out of more than 75 evaluated by Gartner to be positioned in the Magic Quadrant, which evaluates providers of hosted integration services such as trading partner management, integration services, application support and communications.

The report positions integration service providers by their market presence, completeness of vision and ability to execute on that vision. Criteria range from overall business viability, customer experience and operations capabilities to market understanding, product strategy and innovation.

SEEBURGER Managed Services is a hosted offering that provides outsourced eBusiness integration services, trading partner management, and community enablement for enterprises anywhere in the world through the SEEBURGER B2B Operations Center. The services utilize SEEBURGER's B2B Gateway, a comprehensive EAI and B2B integration suite that has automated trading relationships for more than 6,500 customers since SEEBURGER's founding in 1986.

"We believe our positioning in Gartner's Magic Quadrant report calls attention to the fact that we have a strong Managed Services offering in addition to our highly regarded installed B2B, EDI, and application integration tools," said Scott Lewin, president of SEEBURGER US. "Our hosted service is a significant contributor to the over 100% annual growth rate we have experienced over the past five years, reflecting our ability to leverage the capabilities of our B2B Gateway technology to respond to changing customer needs and demands."

The Gartner report, titled "Magic Quadrant for Integration Service Providers, 1Q06," was published on January 19, 2006 and can be viewed at www.gartner.com

About The Magic Quadrant

The Magic Quadrant for Integration Service Providers, 1Q06, was authored by Benoit J. Lheureux and Paolo Malinverno and is copyrighted January 19, 2006, by Gartner, Inc. and is reused with permission. The Magic Quadrant is a graphical representation of a marketplace at and for a specific time period. It depicts Gartner's analysis of how certain vendors measure against criteria for that marketplace, as defined by Gartner. Gartner does not endorse any vendor, product or service depicted in the Magic Quadrant, and does not advise technology users to select only those vendors placed in the "Leaders" quadrant. The Magic Quadrant is intended solely as a research tool, and is not meant to be a specific guide to action. Gartner disclaims all warranties, express or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.
