

# SEEBURGER

BUSINESS INTEGRATION

- Connecting business partners
- Integrating processes
- Linking companies worldwide

# 25 years of integrating best-run businesses

With over 8,500 satisfied customers around the world and 25 years of experience, SEEBURGER is a market-leading supplier of business integration and managed file transfer solutions.

## OUR CORE EXPERTISE

### Connecting business partners, integrating processes, linking companies worldwide

- EDI/B2B solutions for companies of every size, in every industry
- Managed file transfer of structured and unstructured data
- Standardized solutions for SAP best practices
  - End-to-end monitoring for all B2B processes within SAP
  - Add-on cross-industry SAP solutions for order-to-cash and purchase-to-pay processes
  - Add-on SAP solutions for the energy industry

### EDI/B2B and Managed File Transfer

SEEBURGER's Business Integration Suite is the core platform and data hub for all business processes with external business partners. It serves companies of every size, offering both the structured exchange of EDI data and secure managed file transfer for exchanging large amounts of unstructured data. The SEEBURGER Business Integration Suite supports all communication channels with business partners, including EDI, paper, fax or the Web. It converts the data into the required formats, controls processes in accordance with configurable rules, interlinks all the major ERP systems and monitors the processes.

### Process integration in SAP

For SAP users, easy-to-follow workflow-based best practices for handling order-to-cash and purchase-to-pay process are also available.

For the manufacturing industry and energy providers, special monitoring solutions in SAP are available.

The Business Integration Suite can also be used for the secure and traceable transfer of all types of unstructured, sensitive data, ensuring ensuring regulatory compliance.

### Solutions for every industry

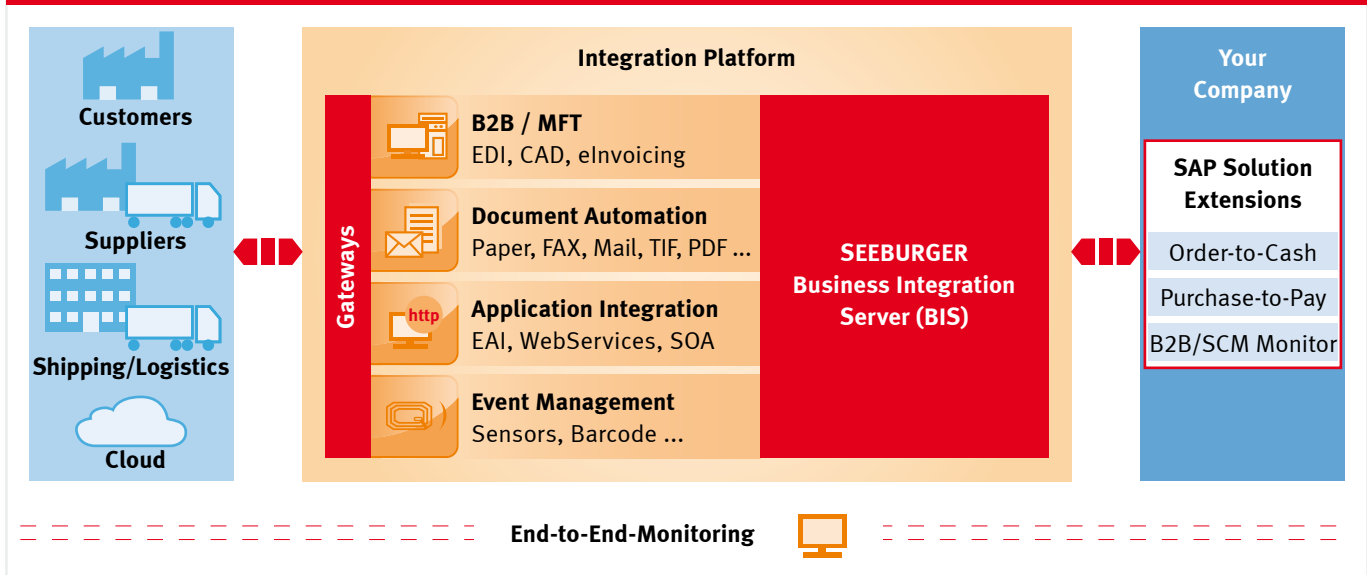

With many years of experience, SEEBURGER offers ready-made solution packages for all industries, meeting their specific needs.

SEEBURGER also provides a large content repository (mappings, partner profiles etc) to minimize project efforts and to ensure a fast and secure roll-out.

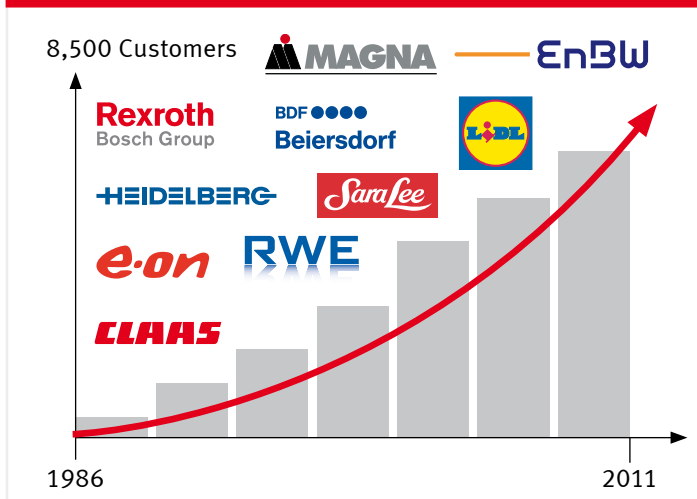

### One-stop delivery

With an integrated approach that includes designing, consulting on and implementing effective software solutions, our customers can very quickly achieve full automation of their business processes for all their business partners, large or small.

## SEEBURGER BUSINESS INTEGRATION SUITE

## OVER 8,500 CUSTOMERS AROUND THE WORLD

### Maximum benefits for our customers

Our customers can save costs by eliminating manual processing, ensuring error-free data and processes, and making all processes faster, more transparent and easy to understand.

### Multitude of deployment options:

#### on-premise, as a managed service or via the cloud

SEEBURGER solutions can be installed at the customer's premises, operated as a managed service in SEEBURGER's data center or deployed as a cloud solution. Hybrid forms such as remote services are also readily available.

### SEEBURGER and SAP – a strong partnership dating back over 15 years

Since the days of SAP R/2, SEEBURGER has been supplying comprehensive integration solutions for companies that use SAP. Today, SEEBURGER is the only B2B solutions provider with a portfolio that meets the entire scope of SAP users' needs, whether they are SMEs or multinational corporations.

SEEBURGER solutions were first SAP-certified in 1995, and today certification includes everything from basic EDI through to technically demanding NetWeaver certification. To date, SEEBURGER has been awarded more than 50 individual certifications. SEEBURGER is also one of the few exclusive partners whose products enjoy worldwide distribution by SAP, and has achieved SAP's Premium Qualification status – the highest seal of approval for such products.

### Ratings by analysts

SEEBURGER solutions are constantly assessed by leading IT analysts like Gartner and Forrester, among others. Our technology is regularly graded as exemplary, and the company ranks as a "Visionary" within its industry.

## MILESTONES IN OUR COMPANY'S HISTORY

- 1986** Launch of what is probably the most successful EDI solution for the automotive industry
