

Order-to-Cash

Fully automated Order-to-Cash Solution for SAP – from incoming sales orders to outgoing invoices

SEEBURGER Order-to-cash solutions help streamline and automate business processes from orders to invoicing – through standardization and full SAP integration – regardless of communication channels. With SEEBURGER, you can easily meet and exceed your customers' communication and service level requirements.

Streamlining the Order-to-Cash-Process benefits both you and your customers

Streamlining the Order-to-Cash-Process greatly reduces process costs and processing time, especially the possibilities in automatic working on incoming Sales Order from all gateways and the benefit of the electronic outbound invoicing (e-invoicing).

Receive orders from any partner, anyhow, anywhere

You can increase your sales revenue with a lot of distribution channels. Next to the classic B2B/EDI-business and the sales orders via incoming paper-, pdf or fax, the order entry via webshops is more and more important.

Meet ever-increasing customer service and communication requirements

Timely response to customer inquiries, immediate error handling and on-time data exchange effectively improves customer service levels, leading to greater customer satisfaction.

B2B/EDI, automated document processing (inbound sales orders) and SAP in one standardized B2P-Process-Solution

SEEBURGER combines a long experience of B2B-EDI-Solutions and automatic document recognition and processing with extensive SAP expertise to produce a standardized Solution Extension "Order- to- Cash" – the Best Practise Solution for SAP.

Complete Transparency

Full transparency across business processes includes 100 % transaction logging and traceability. Keep track of all received sales orders.

Full SAP Integration

Consistent order processing (inbound sales orders) in SAP with no process breaks, with best in class usability.

Processes Acceleration

The higher degree of process automation offers cost reductions and shorter lead times for order entry and processing.

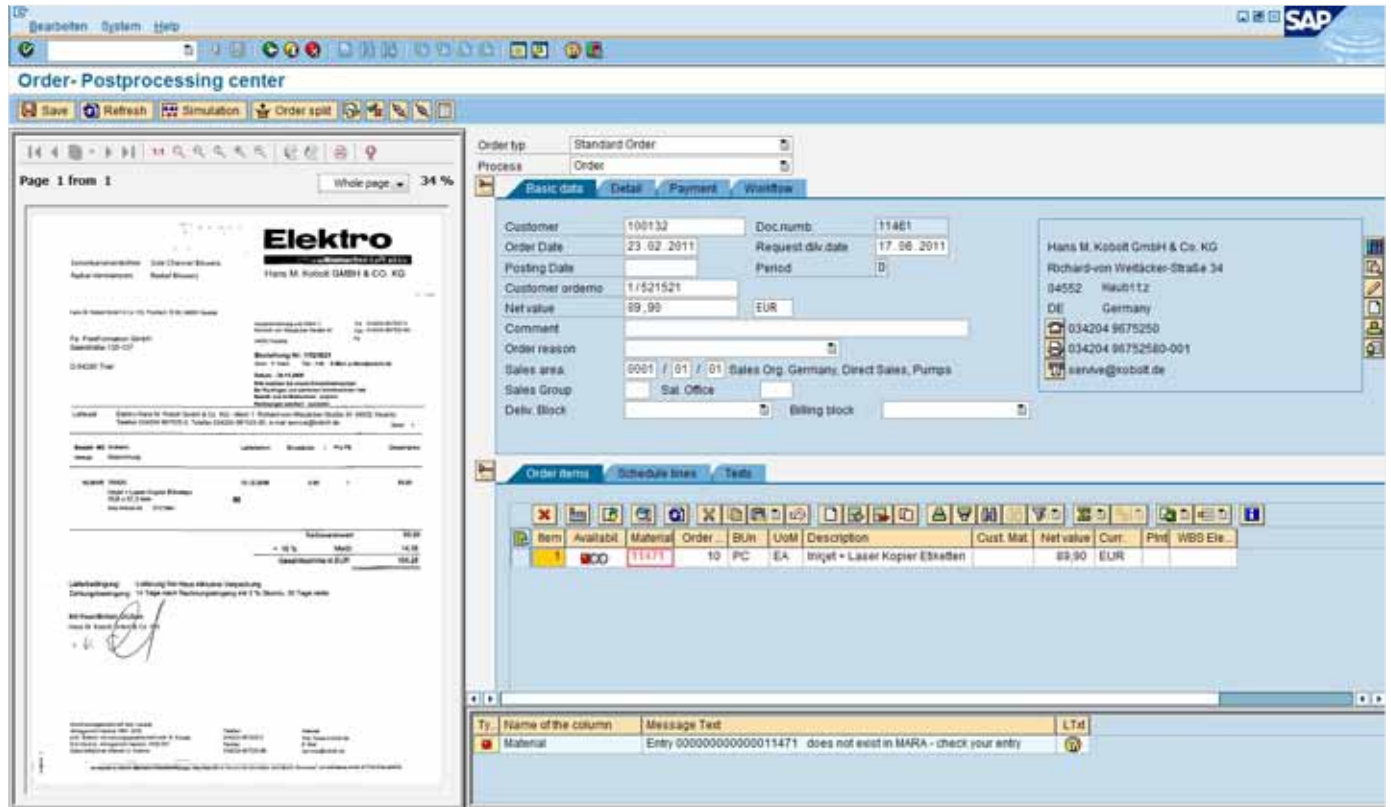

Best in Class Customer Service

Orders are delivered on time with timely response to customer inquiries.

Improved Cash-Flow and Liquidity

Reduced order cycle times allow for prompt billing, resulting in better cash-flow and liquidity.
