

Experience the SEEBURGER Difference

The SEEBURGER B2B/EDI Solution – part of the Business Integration Suite – is German-engineered from the ground up using a single source-code base. This holistic approach means that you will be able to onboard and manage your trading partners quickly – on-premise, in the cloud, in a hybrid model.

Quickly Onboard

Bring trading partners onboard quickly and uniformly

Flexible Deployment

Deploy EDI on-premise, in the cloud, or in a hybrid model.

Full Service Option

Our Managed Service offering provides a way to quickly automate

FLEXIBLE DEPLOYMENT OPTIONS

IT Flexibility

Deploy Quickly Wherever

- Flexibility of deployment
- Simplified processes
- Uniform technologies

Line of Business

Speed and Flexibility

- Fast onboarding
- Quickly adapt to market changes
- Deeper level of visibility and control

Partners

Develop a Broad Ecosystem

- Use the B2B Directory in the cloud
- Partners self-service availability
- Lowest cost onboarding

The B2B/EDI Solution – Key Differentiators

Map Library

Our large library of pre-defined message maps has been developed and tested for many years, especially for verticals with many trading partners.

Partner Self-Service

The B2B Directory allows partners to register themselves, lowering the cost of onboarding even further. Routing services can also be in the cloud, lowering cost of connection.

Experienced Specialists

Our staff has hundreds of man-years of EDI experience, especially in Automotive, Retail, Financial Services, and Utilities. We are here to support rapid but correct deployment.

Supported Protocols

ERP Connectors

SAP, Infor, Oracle, Microsoft, QAD, ProAlpha, IFS, NetSuite and others

EDI Message Formats

EDIFACT, ANSI X.12, XML, SWIFT, HL7, CIDX, EIAJ, AECMA, and others

Transmission Channels

Direct: OFTP, SFTP, AS2, HTTP(S), FTP(S) and others
VAN: IBM, OpenText, Atlas, Tradanet, ATT, EXITE, Telebox X.400, KPN

Benefits of the SEEBURGER Business Integration Suite

FUTURE-PROOF YOUR BUSINESS THROUGH INTEGRATION

30 Years' Experience

Over 10,000 Global Customers

100% German-Engineered

Digital transformation is forcing companies to implement digital business models and roll out consistent networking strategies across all of their business areas. With SEEBURGER BIS, you give your company a significant competitive advantage: thanks to the seamless integration of all systems, applications, business partners and cloud services, you can access all the information you need anywhere in real-time, enabling you to generate greater revenue and profit in your core business.

You Only Need a Single Platform!
